HOW OUR UNIQUE SPECIALIST SERVICE WORKS

1. Source suitable property based on client qualification. The minimum deposit required for a buy to let is 25% so if, for example, the client has £45,000, the property search will include properties up to £180,000.
2. Negotiate the purchase price with the vendor. We do not charge a percentage so you can be assured our goal is to achieve the best possible price for you.
3. Oversee the conveyance process. Our aim is to make this process as smooth and painless as possible - highlighting and dealing with any issues quickly and efficiently.

Specialist service

4. Arrange access to market the property prior to completion; in all cases, this is a condition of the offer to purchase. This enables us to find a suitable tenant whose move-in date would be as soon as possible after completion. The aim here is to get your asset earning a return for you from day one.
5. Organise and oversee any works that may need to be carried out at the property. This would include gas and electric checks which are both compulsory under current legislation.
6. Offer a complete on-going management service which covers every aspect of the tenancy; including quarterly inspections and
7. Offer on-going advice on the status of your property portfolio.
